Contents

No. 1 (February 1997) PAGE

Management practices associated with high mortality among preweaned dairy heifers W. C. Losinger and A. J. Heinrichs 1

Evaluation of low cost in-line milk samplers for estimating individual cow somatic cell counts T. Clarke, S.-P. Andrews, P. J. Moate, C. A. Pollino and W. L. Schmidt 13

Patterns of clinical mastitis manifestations in Danish organic dairy herds M. Vaarst and C. Enevoldsen 23

Integrity of the secretory epithelium of the lactating mouse mammary gland during extended periods after suckling Yu. A. Tolkunov and A. G. Markov 39

Relationships of growth hormone gene and milk protein polymorphisms to milk production traits in Simmental cattle M. Falaki, A. Prandi, C. Corradini, M. Sneyers, N. Gengler, S. Massart, U. Fazzini, A. Burny, D. Portetelle and R. Renaville 47

Performance of falling film evaporators on whole milk and a comparison with performance on skim milk R. S. Jebson and H. Chen 57

Exploration of the mechanism of heavy coagulum formation in lactic casein manufacture: role of starter and an unidentified co-factor M. G. Weeks, E. J. Gosling and P. A. Munro 69

Differential titration of plasmin and plasminogen in milk using sandwich ELISA with monoclonal antibodies D. Dupont, C. Bailly, J. Grosclaude and J.-C. Collin 77

Rapid and sensitive immunomagnetic separation–polymerase chain reaction method for the detection of *Escherichia coli* O157:H7 in raw milk and ice-cream C. M. Gooding and P. V. Choudary 87

Nutritional requirements of *Leuconostoc mesenteroides* subsp. *mesenteroides* and subsp. *dextranicum* for growth in milk P. Bellengier, J. Richard and C. Foucaud 95

Purification and immunochemical quantitation of *Penicillium roqueforti* acid aspartyl proteinase E. Bracq, A. Levieux and D. Levieux 105

Modification of microstructure and texture of rennet curd by using a capsule-forming non-ropy lactic culture A. N. Hassan and J. F. Frank . . 115

Effect of pH and time on the quantity of readily available water within fresh cheese curd C. Ramkumar, L. K. Creamer, K. A. Johnston and R. J. Bennett 123

Image analysis applied to electron micrographs of stirred yogurt A. Skriver, M. B. Hansen and K. B. Qvist 135

Short communications

Expression of a bovine α-lactalbumin transgene in α-lactalbumin-deficient mice can rescue lactation. *In vivo* relationship between bovine α-lactalbumin expression content and milk composition S. Soulier, L. Lepourry, M.-G. Stinnakre, J.-C. Mercier and J.-L. Vilotte . 145

Bioactive peptide derived from *in vitro* proteolysis of bovine β-lactoglobulin and its effect on smooth muscle A. Pihlanto-Leppälä, I. Paakkari, M. Rinta-Koski and P. Antila 149

Effect of milk chemical composition and clotting characteristics on chemical and sensory properties of Reblochon de Savoie cheese B. Martin, J.-F. Chamba, J.-B. Coulon and E. Perreard 157

No. 2 (May 1997)

Machine milking of Ostfriesian and Lacaune dairy sheep: udder anatomy, milk ejection and milking characteristics R. M. Bruckmaier, G. Paul, H. Mayer and D. Schams 163

Influence of supplementary fish oil and rumen-protected methionine on milk yield and composition in dairy cows Y. Chilliard and M. Doreau . 173

Effects of dietary calcium soaps of unsaturated fatty acids on digestion, milk composition and physical properties of butter F. Enjalbert, M. C. Nicot, C. Bayourthe, M. Vernay and R. Moncoulon . . 181

Immunohistochemical investigation into the distribution pattern of myoepithelial cells in the bovine mammary gland A. Hellmén and A. Isaksson 197

Effects of stage of lactation, milk protein genotype and body condition at calving on protein composition and renneting properties of bovine milk S. Ostersen, J. Foldager and J. E. Hermansen 207

Application of capillary electrophoresis to the study of proteolysis of caseins I. Recio, L. Amigo, M. Ramos and R. Lopez-Fandiño 221

Isolation of genomic DNA from milk samples by using Chelex resin M. Amills, O. Francino, M. Jansa and A. Sanchez 231

Folate and folate-binding protein content in dairy products K. Wigertz, U. K. Svensson and M. Jägerstad 239

Binding of *Staphylococcus aureus* to milk fat globules increases resistance to penicillin-G T. Ali-Vehmas, P. Westphalen, V. Myllys and M. Sandholm 253

Temperature characterization of psychotrophic and mesophilic *Bacillus* species from milk M. R. García-Armesto and A. D. Sutherland . . 261

Monitoring the microbiology of high quality milk by monthly sampling over 2 years N. Desmasures and M. Gueguen 271

Influence of whey and purified whey proteins on neutrophil functions in sheep C. W. Wong, A. H. Liu, G. O. Regester, G. L. Francis and D. L. Watson 281

Relationship between level of hydrophobic peptides and bitterness in cheese made from pasteurized and raw milk M. J. Gomez, S. Garde, P. Gaya, M. Medina and M. Nuñez 289

Short communications

Restrained molecular dynamics investigation of the differences in association of chymosin to κ-caseins A and C J. E. Plowman, L. K. Creamer, M. H. Smith and J. P. Hill 299

Survey of lactic acid bacteria isolated during the advanced stages of the ripening of Parmigiano Reggiano cheese R. Coppola, M. Nanni, M. Iorizzo, A. Sorrentino, E. Sorrentino and L. Grazia 305

Isolation and detection of *Clostridium tyrobutyricum* cells in semi-soft and hard cheeses using the polymerase chain reaction L. Herman, J. de Block and R. van Renterghem 311

No. 3 (August 1997)

Inhibition of milk ejection in cows by oxytocin receptor blockade, α-adrenergic receptor stimulation and in unfamiliar surroundings R. M. Bruckmaier, O. Wellnitz and J. W. Blum. 315

Oxytocin and prolactin suppress cortisol responses to acute stress in both lactating and non-lactating sheep C. J. Cook 327

Non-insulin- and insulin-mediated glucose uptake in dairy cows M. T. Rose, Y. Obara, F. Itoh, H. Hashimoto and Y. Takahashi 341

Renneting properties of milk from individual ewes: influence of genetic and non-genetic variables, and relationship with physicochemical characteristics O. Pellegrini, F. Remeuf, M. Rivemale and F. Barillet . 355

^{15}N enrichments of casein and plasma protein amino acids in cows ingesting ^{15}N-labelled ammonium sulphate F. Casseron, G. Rychen, X. Rubert-Aleman, G. J. Martin and F. Laurent 367

Solution conformation of a peptide corresponding to bovine κ-casein B residues 130–153 by circular dichroism spectroscopy and ^{1}H-nuclear magnetic resonance spectroscopy J. E. Plowman, L. K. Creamer, M. J. Liddell and J. J. Cross 377

Purification and characterization of aminopeptidase P from *Lactococcus lactis* subsp. *cremoris* M. McDonnell, R. Fitzgerald, I. Ni Fhaoláin, P. V. Jennings and G. O'Cuinn 399

Characterization of the lactic acid bacteria in artisanal dairy products T. M. Cogan, M. Barbosa, E. Beuvier, B. Bianchi-Salvadori, P. S. Cocconcelli, I. Fernandes, J. Gomez, R. Gomez, G. Kalantzopoulos, A. Ledda, M. Medina, M. C. Rea and E. Rodriguez 409

Examination of whole milk powder by confocal laser scanning microscopy A. B. McKenna 423

Isolation and identification of further peptides in the diafiltration retentate of the water-soluble fraction of Cheddar cheese T. J. Singh, P. F. Fox and Á. Healy 433

Determination of free fatty acids in cheese: comparison of two analytical methods F. Chavarri, M. Virto, C. Martin, A. Nájera, A. Santisteban, L. J. R. Barrón and M. de Renobales 445

Effect of yogurt and bifidus yogurt fortified with skim milk powder, condensed whey and lactose-hydrolysed condensed whey on serum cholesterol and triacylglycerol levels in rats A. K. Beena and V. Prasad . . . 453

Short communications

Preparative-scale fractionation of bovine, caprine and ovine whey proteins by gel permeation chromatography X. Felipe and A. J. R. Law . . 459

Method for the measurement of lipase activity in milk G. Humbert, M.-F. Guingamp and G. Linden 465

Mineral content of camel milk and colostrum A. M. S. Gorban and O. M. Izzeldin 471

Review article

Laminitis in the dairy cow: a cell biological approach K. A. K. Hendry, A. J. MacCallum, C. H. Knight and C. J. Wilde 475

No. 4 (November 1997)

Effect of unilateral once or twice daily milking of cows on milk yield and udder characterstics in early and late lactation K. Stelwagen and C. H. Knight 487

EDTA-induced dissociation of casein micelles and its effect on foaming properties of milk B. R. Ward, S. J. Goddard, M.-A. Augustin and I. R. McKinnon 495

Relationship between degree of casein hydrolysis and phosphopeptide release N. J. Adamson and E. C. Reynolds 505

Study of the polymorphism of caprine milk caseins by capillary electrophoresis I. Recio, M. L. Pérez-Rodríguez, L. Amigo and M. Ramos . . . 515

Study of the polymorphism of ovine α_{s1}- and α_{s2}-caseins by capillary electrophoresis I. Recio, M. Ramos and L. Amigo 525

Use of a single-strand conformation polymorphism analysis to perform a simple genotyping of bovine κ-casein A and B variants A. Barroso, S. Dunner and J. Cañon 535

Relationship between rheological properties and degree of κ-casein proteolysis during renneting of milk S. B. Lomholt and K. B. Qvist . . . 541

Diarrhoeal toxin production at low temperature by selected strains of *Bacillus cereus* C. Fermanian, C. Lapeyre, J.-M. Fremy and M. Claisse . . 551

Comparison of cell surface proteinase activities within the *Lactobacillus* genus C. Gilbert, B. Blanc, J. Frot-Coutaz, R. Portalier and D. Atlan . 561

Development of a medium simulating Emmental juice for propionibacteria growth D. Salvat-Brunaud, A. Thierry and J.-L. Maubois . . 573

Variation of water-holding capacity and mechanical properties between the particle size fractions of mineral acid, lactic and rennet casein curds C. T. Teo, P. A. Munro and H. Singh 581

Rheological properties at small (dynamic) and large (yield) deformations of acid gels made from heated milk J. A. Lucey, C. T. Teo, P. A. Munro and H. Singh 591

Phosphopeptides from Grana Padano cheese: nature, origin and changes during ripening P. Ferranti, F. Barone, L. Chianese, F. Addeo, A. Scaloni, L. Pellegrino and P. Resmini 601

Short communications

Effect of feed availability on post-milking standing time in dairy cows J. W. Tyler, L. K. Fox, S. M. Parish, J. Swain, D. L. Johnson, H. A. Grasseschi and R. Gant 617

Effect of altering the daily herbage allowance in mid lactation on the composition and processing characteristics of bovine milk B. O'Brien, J. J. Murphy, J. F. Connolly, R. Mehra, T. P. Guinee and G. Stakelum 621

Naloxone and adrenergic blocking agents fail to abolish central inhibition of milk ejection in cows O. Wellnitz, R. M. Bruckmaier and J. W. Blum 627

Cortisol, parathyroid hormone-related protein and the onset of calcium secretion by the mammary gland of the goat G. E. Thompson, S. K. Abbas, C. Holt and A. D. Care 633

Genetic polymorphism of plasminogen in dairy cattle W. Wang, J. D. Turner and G. Robitaille 637
